9 Pc. Metric Extra Long Ball Point Hex Key and Torque Handle Set

ST09124SJ

A set of SATA hex keys gives professionals the strength and versatility required to tackle automotive or industrial work. Do your best work with innovative SATA keys in metric or SAE sizes, combining top features like folding designs or ball ends with the proven strength of precision-formed alloy steel. T-handle designs, small and micro keys for improved access, hex key bit sockets, service adaptors; no matter what you need to get done, SATA has the tool for you. Do good work and make a change with the power and reliability of SATA tools, all covered under our lifetime warranty.

FEATURES

- Up to 30% longer for improved access and leverage
- Ball point keys allow for angled access to fasteners
- Precise fit for a solid grip and chamfered tips for faster insertion
- Easy to read size markings
- Carrying caddy doubles as a high-torque handle to loosen stubborn fasteners
- Housed in impact resistant caddy that also works as a Torque handle with keys
- Chrome vanadium alloy steel (Cr-V) for exceptional strength and durability
