

MADE TO TRUST  
MADE TO CHALLENGE

# 150 Pc. 1/4", 3/8" and 1/2" Drive 6 and 12 Point Metric/SAE Socket Wrench Set

ST09510L

The SATA wrench and socket set has the main objective of making it easier to change the socket sizes, thus speeding up the work to be done! Various types of small services are feasible to perform, such as: small maintenance, tightening and loosening nuts in difficult to reach places. This is one of the sets with the best cost benefit in the market, for presenting a low price and with extreme quality!

## FEATURES

- Ratchet with quick release design allows rapid socket removal
- Ratchet flush mounted reversing lever allows user to change direction with one hand without removing the wrench
- Sockets with Sockets with single hex (6pt) fastener end design
- Socket off-corner loading design reduces fastener rounding
- Large markings offer easy size identification
- Standard and deep socket options to reach more fasteners
- Off-corner loading design on wrench box ends provides better grip and reduces fastener rounding
- Combination wrenches feature a 15° offset box end for added knuckle clearance
- S2 steel insert bits offer maximum strength and durability
- Comes with a durable blow mold case for storage and organization
