1/2" Dr. Offset Quick Release Ratchet

GL13970

SATA ratchets come in standard and metric sizes and are also available in convenient sets. Perfect for any mechanic's toolbox, these high-quality ratchets are ideal for auto repair, farm equipment, off-road applications or removing heavily rusted, stuck-on nuts and bolts. Grip the tool with ease when working on heavy machinery or large industrial equipment. Covered by a lifetime , SATA ratchets help you get the job done.

FEATURES

- Quick release design allows rapid socket removal
- 45 Tooth design requires as little as 8° of swing arc to move a fastener
- Offset handle design provides knuckle clearance in tight access application
- Bright, full polish chrome finish easily wipes clean and resists corrosion
- Chrome vanadium alloy steel (Cr-V) for exceptional strength and durability
