# G Series VDE Insulated Screwdriver, Phillips #0x60MM

GL61211

SATA screwdrivers have all the professional features you'd expect, alongside cutting-edge innovations. We manufacture everything from large Philips screwdrivers with long blades for specialty industries to tiny slotted (flathead) sets for use on jewelry or electronics, like laptop repair. It doesn't matter if you're a gunsmith or an electrician; sometimes, you want something extra from your tools. We've got you covered, with industry-leading innovations like VDE certified insulated screwdrivers rated up to 1000 V for safety, screwdrivers with interchangeable bits and a built-in ratchet function for improved speed while fastening. Go the extra mile with high-performance tools, only from SATA.
